

Course Brochure

Unit of Competency TLID10001A Shift materials safely using manual handling methods.

Who is the course designed for?

This unit involves the skills and knowledge required to shift loads using manual handling methods, including assessing the risks associated with relocating the load, planning the relocation process and carrying out the relocation in accordance with the plan. Work involves the application of the basic principles for the safe lifting and movement of loads when shifting materials using manual handling methods as part of day-to-day work.

This course is designed for participants in various retail, wholesale, warehousing construction, farming etc.

The course provides a pathway leading onto various qualifications within the Transport and Logistics training package (TLI10).

What does the course offer?

The program has been organised to provide students with general skills, background information and specific knowledge about manual handling of loads, which is then applied in discussion, questioning, role-plays and practical application for the industry specific unit.

The program is delivered on-the-job at the client's premises. Training delivery combines face-to-face trainer led theory classes and practical sessions involving small group and individual activities including peer critical evaluation scenarios, questioning, role-plays and simulations.

Candidates are provided with a training manual that covers all parts of the course. Additional material will be made available during training sessions if required.

How are students assessed?

Students are assessed using a combination of observation, questioning, demonstration and written work.

Checklist for clients prior to assessments

- Availability of suitable materials to be shifted (materials used in the course of work).
- You have suitable loads of various shape, size and weight.
- Suitable communication equipment/methods.
- Access and availability of relevant company procedures.

Individual Requirements

- PPE appropriate to your work site (or if at the training centre long sleeve shirt, pants and your work boots) must be brought to the assessment.
