

Course Brochure

Unit of Competency TLID2013A

Move materials mechanically using automated equipment

Who is the course designed for?

This course is designed for new entrants to retail, wholesale, warehousing, construction, farming etc.

The course provides a pathway to obtain skills and knowledge to operate various pedestrian operated plant equipment that does not require a high risk work licence. This qualification can lead onto a full qualification in Transport and Logistics (TLI10).

Students can contact this office on 1300 789 606 for advice.

What does the course offer?

The program has been organized to provide students with general skills, background information and specific knowledge about operating a forklift, which is then applied in discussion, questioning, role-plays and projects for the industry specific unit.

The program is delivered on-the-job at the clients premises. Training delivery combines face-to-face trainer led theory classes and practical sessions involving small group and individual activities including peer critical evaluation scenarios, questioning, role-plays and simulations.

Candidates are provided with a training manual that covers all parts of the course. Additional material will be made available during training sessions if required.

How are students assessed?

- RPL or RCC available for component of this course.
- Students will undergo a theory and practical test. Upon successful completion a "Statement of Attainment" will be supplied to the applicant.
- The theory test requires the completion of 18 questions within 45 minutes. It is a closed book test and no outside assistance is allowed. Groups can sit for the test at one time providing there is sufficient separation. The practical test requires the completion set tasks using a compliant equipment such as low level order picker, walkie stacker etc within a period of 1 hour.
- If a student has problems with written English the theory test may be given orally, but arrangements must be made at time of booking

Checklist for clients prior to assessments

Compliant equipment such as a Low Level Order Picker/Walkie Stacker and Assessment Area

Equipment is in safe operating condition and complies with the requirements of NSW legislation.

You will need to ensure that sufficient space is available and that some racking or shelving is available to lift loads from various heights including the full lift of the order picker.

Individual Requirements

Students should present any training records, such as a log book that have records of “on-the-job” training.

PPE appropriate to your work site (or if at the training centre long sleeve shirt, pants and your work boots) must be brought to the assessment.

Special notes:

This course does not provide a ‘high risk work licence’.
